2022 - 2023

## CERTIFICATIONS

- Front End Development, Relevel

## PROJECTS

**E-Commerce - [dheerushop](#)** | JAN, 2023

The user interface of the application is clean and visually appealing with high-quality products image, clear product description, and easy navigation.

The application is designed to be mobile-friendly allowing users to shop from their headhone, watch.

**Movieapp - [SKYmovie](#)** | FEB, 2023

React Movie App is a web application built using the React framework that allows users to browse and search for movies. The app retrieves movie data from the MovieDB API and displays it in a user-friendly interface.

Overall, the React Movie App provides users with an easy and efficient way to search for and discover new movies to watch.

**Weather-app - [Weather-app](#)** | MAR, 2023

React weather app might include the ability to search for weather information for specific cities or regions, display current weather conditions such as temperature, humidity, and wind speed.

The app may also allow users to customize the display, such as by choosing between Celsius and Fahrenheit temperature.
